

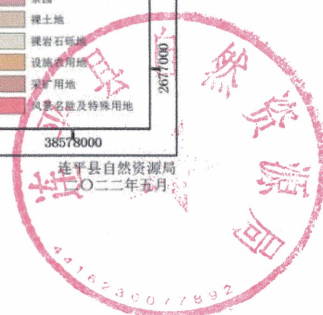

Figure 1 is a detailed land use map of the LS01 area within the Shuangfeng River Basin. The map displays a variety of land use types, each represented by a specific color and pattern. The legend identifies the following categories:

- Water-related features:** Water construction land (red), reservoir water (light blue), water wetlands (yellow), water fields (orange), and various types of water bodies (rivers, ditches, ponds, lakes).
- Forest and Grassland:** Forest land (green), including cultivated, artificial, and other types, as well as grassland (light green).
- Barren and Agricultural Land:** Barren land (light yellow), agricultural land (light green), and agricultural roads (grey).
- Other Land Use:** Public roads (grey), other gardens (light green), other forests (light green), other grassland (light green), inland wetlands (light blue), rural roads (grey), and various types of construction land (red, brown, grey).

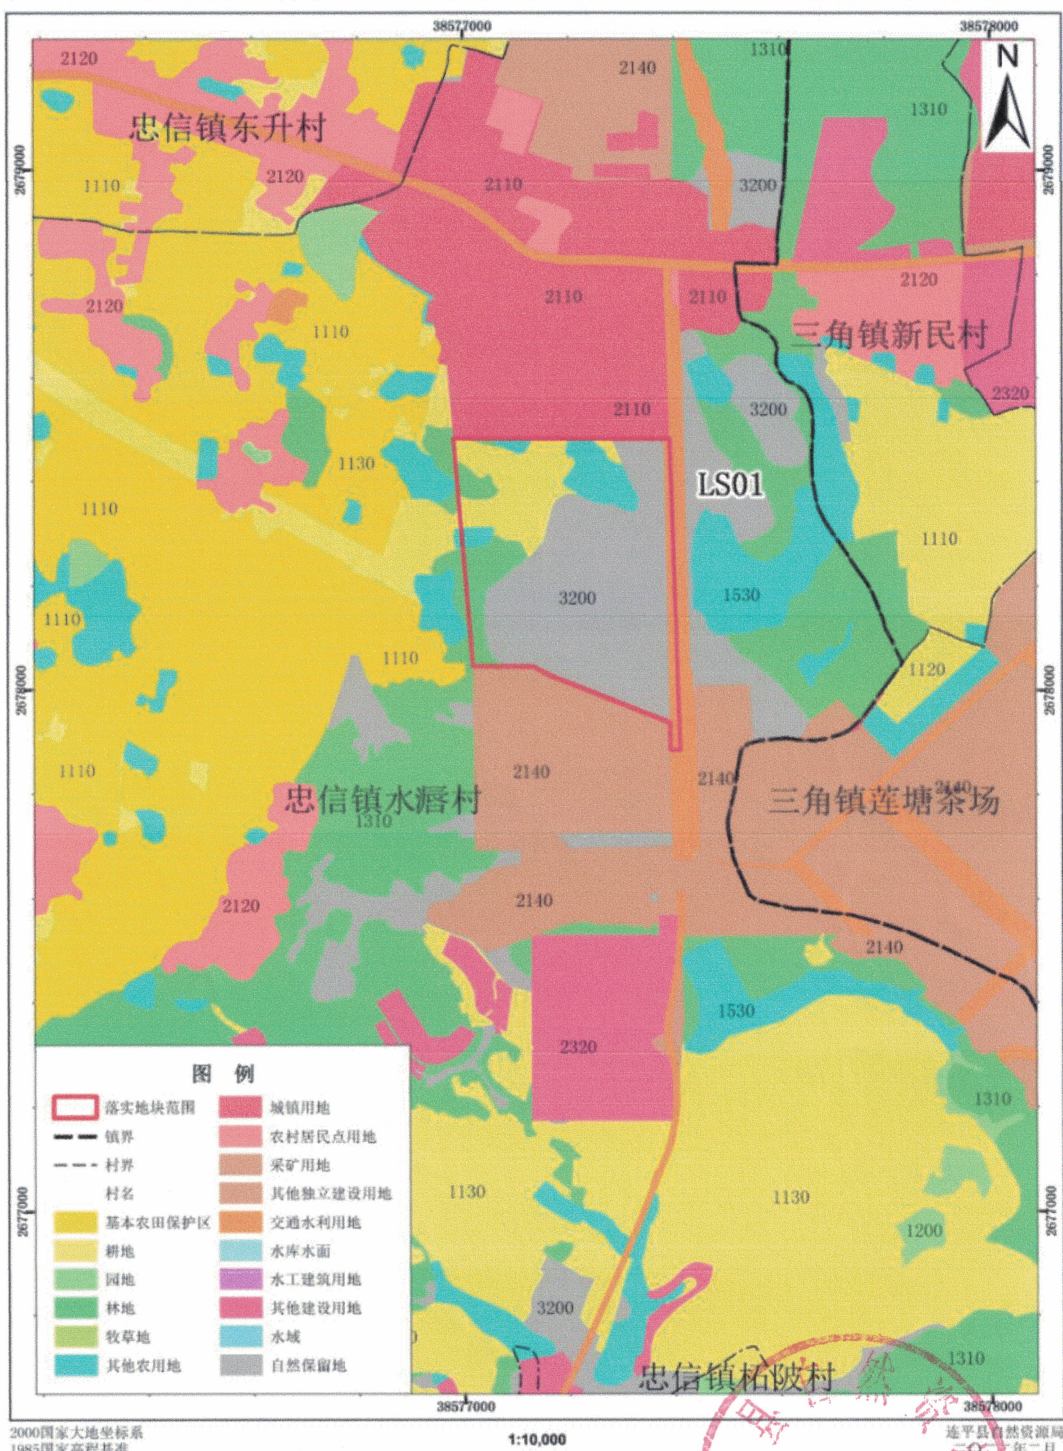

The map also shows the boundaries of the LS01 area (blue outline) and the surrounding villages: Dongsheng Village (东升村), Xinmin Village (新民村), and Shuiren Village (水唇村). The Sanjiao Town Lotus Pond Tea Field (三角镇莲塘茶场) is also labeled. The map includes a north arrow and coordinate markings (3857000, 38578000, 2670000, 2678000).
